***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Information Disclosure Statement***

The PTOL 1449 has been received, reviewed and considered.

***Claim Rejections - 35 USC § 112***

Claims 1 and 3-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terminology "...characterized in that..." is being considered vague and indefinite, since it does not meet up to date U.S. Patent practice standards. Is the claim language open or closed? The terminology is vague and indefinite.

1. Claim 1, lines 6 and 10 and claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 2 are being considered vague and indefinite in the use of the terminology "desired". Use of terms such as "desirable" and "appropriate" when referring to certain parameters do not limit present disclosure to specific percentages recited. --Payet and Brummet v. Swidler and Wilson (POBdPatInter) 207 USPQ 168.

2. Claims 22-24 provide for the use of bulk nitride monocrystal", but, since the claims do not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it

merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 22-24 are rejected under 35 U.S.C. 101 because the claimed recitation of are, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

***Claim Rejections - 35 USC § 103***

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 21-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over FR-A-2 796 657 (THOMSON CSF).

FR-A-2 796 657 teaches a bulk gallium-containing nitride monocrystal as such without any characterizing features. Such a monocrystal cannot be considered a novel product since the FR-A-2 796 657 reference (see claims 21,22) teaches bulk gallium-containing nitride monocrystals. It is implicit that FR-A-2 796 657 (see p.1, lines 4-13)

teaches monocrystals are used as substrates for epitaxial growth in device fabrication. The mineralizer has only one technical feature and that is that it comprises one of the alkali metal azides. Since there are all known compounds (see example  $\text{NaN}_3$ ), the claimed mineralizer product per se cannot be considered novel. Therefore, it would have been obvious to one of ordinary skill in the art to use and modify the FR-A-2 796 657 reference to encompass the instant invention in order to ensure proper orientation. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Felisa Hiteshew whose telephone number is (571) 272-1463. The examiner can normally be reached on Mondays through Thursday from 5:30 AM to 4:00 PM with Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta, can be reached on (571) 272-1316. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-1463.
